DIRECTIONS TO RANCH:

From **Main Street in Polson**, take a **right** on **7th Avenue West**; travel approximately **3.2 miles**.

Right on Foreman Road. Travel approximately **6 miles**; keep going straight into the ranch driveway.

There will be a **Marchi Angus Ranch Home Place** sign to the right of the driveway. Follow the driveway bearing right on you will see the hay barn and house.

SILENT AUCTION

This is our 12th Silent Auction Sale. The silent auction method significantly reduces our sale costs. And we are passing those savings on to you by lowering prices. Each lot has a minimum and a maximum bid number. Here's how it works:

1. Get a bid number during sale day or in advance of the sale by calling, faxing or emailing either Jon or Liz.
2. Each lot will have a bidding sheet at the sale. Write your bid number and bid amount on the sheet. If you want to buy the bull or heifer immediately write the maximum bid on the sheet and then it is yours.
3. Bidding begins on **November 3rd** and closes at 1:00 p.m. on sale day. Lunch and refreshments will be served all day.
4. If you want to place a bid early or are not able to come to the sale then you can call us prior to the sale with your bid. During the sale you can also call Jon or Liz to place bids.
5. Those bid sheets that have reached the maximum bid will be taken out of the sale as they are received. The remainder will be picked up at 1:00 p.m.

BULL CONDITIONING

The bulls are in their working clothes and are ready to breed cows. They have not been clipped or groomed. Their feed is forage, just hay and grass. We want them to be lean athletic breeding machines. The bulls are virgin and they get lots of exercise which provides stamina and sound feet and legs. Our system has worked well over the past 26 years for our customers. Rarely do we get a bull back.

REGISTRATION CERTIFICATES

Please let us know if you want the registration certificates transferred to your name. All the cattle have registration certificates.

CALVING EASE

We have identified the cattle with calving ease with a symbol in the catalog. They qualify for calving ease based on the analysis of actual numbers, EPD'S and our experience with the bull and dam.

HEALTH

Bulls have been fertility tested, heifers and cows Bang's vaccinated and pregnancy tested by our veterinarian, Mike Marrinan, DVM, Hot Springs, MT 406-741-2576. All cattle have been vaccinated and had pour-on for external and internal parasites in the past 30 days.

VOLUME PURCHASE DISCOUNT

If you buy 5 to 9 head we will give you a 5% discount on all your purchases. 10 to 14 head receives a 7.5% discount. If you buy 15 head or more there is a 10% discount on all cattle purchased.

GUARANTEE

All cattle sell fully guaranteed. If you are not satisfied, we will return your purchase price or replace your purchase with a mutually acceptable animal at your option. Please do not sell your animal without calling us first.

BIRTH AND CURRENT WEIGHTS

Actual birth and current weights for all cattle are provided in the catalog.

TRANSPORTATION

We will provide free delivery of your purchases anywhere in the United States up to the first 250 miles, then at cost thereafter. If you haul your own we will rebate \$50.00 a head for the first purchase and \$15.00 a head for the remaining purchases up to \$250.00

OUR HERD BULL STRATEGY

All of our herd sires are owned by us. They are on our ranches and breed our cows naturally. This gives us the advantage of getting to know the bull's calving ease, disposition, stamina, fleshing ability and longevity. If we buy a bull and later find that he doesn't meet our criteria then he is no longer used on our registered cows.

THANK YOU

We appreciate your support of Marchi Angus Ranches and wish all of you a prosperous 2015.

26th PRODUCTION SALE, SATURDAY, NOVEMBER 8, 2014

BIDDING BEGINS ON NOVEMBER 3 and ENDS 1:00PM NOVEMBER 8

To: Our Friends and Customers:

AT OUR FALL SALE we are selling 24 Registered Angus Bulls, 7 Registered Wagyu Bulls, 7 Registered Angus Bred Heifers and 10 Registered Wagyu Bred Females. Our cattle are 100% forage fed which means that they are on our pastures during the grazing season and are fed only our hay in the winter. We keep our best cattle to sell as breeding stock or to add to the herd. The rest are sold as meat directly to restaurants and individuals by either purchasing a full or one-half carcass. We are pleased to have been certified by the WESTERN SUSTAINABILITY EXCHANGE, as a ranch that practices sustainable ranching. The WSE certification ensures ranching practices to protect human and livestock health and welfare.

LUNCH: Starting at Noon we will serve another great lunch featuring homemade beef with fresh out of the oven rolls along with other refreshments. Lunch will continue until Sale Day is over. Feel free to come and bring others even if you are not buying.

CALVING EASE: We have built our reputation on calving ease bulls. 16 of the 24 Angus bulls in the sale have calving ease. 100% of our Wagyu bulls and heifers are marked for calving ease because of the breed's low birth weights and our experience over the past 22 years with the Wagyu herd. With cattle prices at all new highs this is not a time to lose calves.

PRICED TO SELL: Our family has been in the cattle business in Montana since the 1950's with commercial cow herds. We have been in the Registered Angus business since 1985 and the Registered Wagyu business since 1993. We continue to sell our cattle at reasonable prices with a guarantee of your money back or an acceptable replacement if you are not completely satisfied. So far in 2014 **the lowest sale for Angus bulls averaged \$3050 and the highest \$6775.** Our maximum bids for Angus Bulls are from **\$3200 to \$2700.** Minimum bids **\$1700 to \$2000.** Marchi Ranches offers a superb value for quality cattle.

We have been doing this for 59 years. Thanks to all of you as our customers who have purchased over 2270 bulls and heifers from Marchi Ranches since our first auction sale. We look forward to seeing you at the ranch. Our best wishes for a prosperous 2015!

We are grateful to you our friends and customers.

EPD EXPLANATIONS (EPD = EXPECTED PROGENY DIFFERENCE)

CED = Calving Ease Direct Range: -4 to +14. Higher is better.

BW = Birth Weight by Pounds Range: +12.9 to -2.5. Lower is better.

WW = Weaning Weight Range: -14 to +70. Higher is better.

MILK = Maternal Milk by Pounds: Range: -16 to +35. Higher is better.

Nineteen years ago we made the decision to start using natural pasture breeding and to de-emphasize artificial insemination. It was a good decision because we now owned and had possession of our herd bulls. This provided us with a better understanding of the herd bull's fertility, stamina, longevity, calving ease, disposition and ability to travel. The purchase of our first herd bull in 1995 was the Reserve Grand Champion at the National Western Stock Show which was and still is the largest Angus show in the world. Our bull named W F Hammer 201 later won the Angus Association's "Pathfinder Sire Award".

Our Wagyu History

My Dad helped me start our registered Angus herd in the middle 1950's. In 1993 our Wagyu herd was started by using semen from Washington State University with a bull called ALVIN. We bred a few of our registered Angus heifers. At calving time we were amazed at the low birth weights with no calving problems. The best of our Wagyu heifer calves were registered with the American Wagyu Association. The pedigrees of our Wagyu's have only registered Angus in their background. In 1999 for the first time we put five purebred Wagyu's in our production sale. At that time the breed had not been offered in a public sale in Montana. It was a good sale with the Wagyu's generating a lot of interest and sold well. Since then we have included the Wagyu breed in our production sales. The Angus influence in our Wagyu herd is significant. Over the past 20 years we selected only the best Wagyu/Angus heifers to put back in the herd. Weaning weights have increased significantly.

Calf prices are at all time highs. The U.S. beef herd is the lowest since the 1950's. The cost of losing a calf is too high. Wagyu bulls have tremendous libido. For the last three years we have had less than 4% dry cows when pregnancy tested. 100% positive semen tests on our Wagyu bulls have occurred twice in the last four years. Breeding Wagyu bulls to first calf heifers reduces the risk of losing the calf and results in the heifer breeding back earlier. And there is excellent demand for 50% or more Wagyu calves.
